Hey Michael,

I hope you are doing well. Paul R. is on the Interagency Management Team for BDCP and he will have received this but I wanted to make sure you saw it. An issue paper about conveyance construction is attached. It was drafted by NMFS; I added EPA concerns about CWA compliance.

There are a list of issues the IMT is attempting to either resolve or present to a higher level of management for resolution.

The list of issues is: Biological Goals and Objectives, Conveyance (all aspects), Operations, Restoration, Financing, and Governance. An issue paper will be created for each.

If you want any Corps issues to be flagged in this IMT process, you should let Paul R. know and he should add them to the issue papers as they are produced.

Let me know if you have any questions.

Erin

Hi Everyone,

EPA added some items to the draft issue paper Mike Tucker produced for conveyance. You can see them in track changes in the attached document.

I'll be participating by phone today for the first hour of the phone call.
